Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown

Comments: The UAA survey was conducted in October 2008 and no evidence of WBCR was observed. Hunting area/wetlands noted. A 2005 UAA cited the presence of ATV tracks through stream segment. No interviews were conducted.

Is the evaluated use attainable? ☒ Yes ☐ No

Comments: The stream met the maximum depth criterion at 3 of 10 sites. Because the maximum depth criterion was met, the committee recommends the WBCR use designation be retained. Due to evidence of secondary contact recreation (SCR), the committee recommends that the SCR use be assigned.
